

Overview: Designed by a team of child mental health experts, TEAM UP's virtual learning platform offers an asynchronous educational experience. Courses address a range of behavioral health topics and provide guidance in identifying, assessing, screening, and caring for behavioral health concerns faced by children and families. Courses are designed to support the work of health care practitioners, particularly in primary care settings.

How to Enroll in TEAM UP's Virtual Learning Platform

1. Please add teamupforchildren@trainingfolks.com as a safe sender to your email list, or continuously check your spam folder, when expecting the initial registration email.

2. You should receive an email from the **TEAM UP Support** with a link to register an account on TEAM UP's Virtual Learning Platform. Please register your account as soon as possible; it is recommended to complete within 24 hours.

3. Once you are set up, you will see 3 main categories at the top of the site: Dashboard, Catalog, and Resources. The Dashboard tab will be your main area for the platform and the Catalog tab will be where you can find courses to enroll in.

4. The Catalog tab is to view current available modules. You will need to select "enroll" on each individual course you plan on participating in and to begin the course. After you have enrolled in a module, you should be able to find it on the Dashboard tab.

5. Modules are required to be completed with an 80% or higher. The platform automatically gives you 2 attempts. If you do not achieve 80% within 2 attempts, please email teamup.learningcommunity@bmc.org with the title of the course for reset options.

If you have any questions, please email teamup.learningcommunity@bmc.org.
